MISS TIPSÍ

September 11, 2018

From Maria Heinke Kueppers

To whom it may concern.

By means of this letter I wish to state for the record that:

Illán López Hernández has been working at Main Bricks S.L. as graphic designer in our software Miss Tipsi. For one year he has responsibility for the development of the graphic design of the different applications that make up the different applications that make up Miss Tipsi, as well as the improvement of the user experience.

In addition to his technical knowledge, I would like to highlight his dedication, motivation and desire to learn and to his desire to learn and continuous improvement that have made of Illán López Hernández a partner whom it has been very easy to collaborate

Illán López Hernández has proven to be capable of proposing creative solutions, dealing with legacy jobs and creative solutions, dealing with inherited work and adapting to the time and quality conditions that the moment required. Likewise, in his work he has been able to reflect the essence of what Miss Tipsi wanted to transmit to our clients and users.

To our regret, Illán López Hernández has taken the decision not to continue with us. at Main Bricks S.L. since at the end of his scholarship period we don't have the budget to convert his scholarship into an employment contract, not being able to offer him an improvement of his working conditions according to his value.
